# Information & Communications becomes Microsoft Certified Partner

**Scottsdale, Ariz., January 2003**-

**Information & Communication Systems (ICS)** today announced it is a new member in the Microsoft Certified Partner Program. The Microsoft Certified Partner Program allows ICS to use the Microsoft Certified Partner logo, which is an easy way for customers to recognize ICS as certified by Microsoft Corp. Microsoft offers a variety of resources to program members, including training, technical support, early access to Microsoft products, and peer-networking opportunities that allow a variety of partners to come together and provide end-to-end customer solutions.

ICS provides a comprehensive package of technical solutions that help businesses optimize their network operations for better performance, minimizing downtime and provide savings. ICS is an Arizona based company that provides computer and networking solutions to the business community. ICS designs, develops, implements and maintains information systems, networks, web sites, e-commerce systems, databases and custom software.

"We are extremely pleased with our new status as a Microsoft Certified Partner," said Robert DelGarbino, chief operations officer for ICS. "By becoming a Microsoft Certified Partner, ICS is making a wise investment in the company, and demonstrating a commitment to emerging technologies and providing excellence in customer solutions to our clients. This worldwide program is for independent companies, such as ICS, that provide Microsoft-based IT services and products to corporate, government and small- or medium-sized businesses. At such an early stage in our company's growth, we are pleased to be a member of the partner program"

**About Information & Communication Systems**

Information & Communication Systems offers the high tech tools, training and support which organizations use to gain or maintain a competitive advantage in today's rapidly changing business environment.
