

The "Solution" to business continuity is to keep your systems from failing in the first place...

Your business success depends on your IT infrastructure. You need your IT service provider to deliver proactive services that not only keep your network up and running, but running effectively and efficiently. With our Managed-ICS network services you will see increased reliability, security, and performance – immediately, and at an affordable price.

Key Benefits

- Lower costs and increased efficiency via resource reallocation
- Significant decrease in downtime
- Improved network and hardware performance
- Fewer "growing pains" via network capacity management
- Protection against security breaches
- Visits from your IT services provider are more productive and less intrusive
- Increased employee productivity by automating IT maintenance

Disaster Recovery Planning

There are thousands of things that could disrupt your business

CHEMICAL SPILL > WIND STORM > FIRE & HURRICANE > BLACK OUT > FLOOD > EARTHQUAKE > ICE CHEMICAL SPILL > WIND STORM > CHEMICAL SPILL
 FACILITY OUTAGE > GAS LEAK > DATABASE CORRUPTION > LIGHTNING > TERROR ALERT > TORNADO FACILITY OUTAGE > GAS LEAK > FACILITY OUTAGE

overcoming them is ours

Calculate the cost of an unavailable network

- Take the number of workers that need the network to do their job..... _____
- Multiply it by the average wage per worker, per hour (include burden rate). X _____
- This equals the Productivity Cost per hour = _____
- Add the Business Loss Cost per hour + _____
- **This is the total cost per hour of your unavailable network = _____**

Plan for disaster recovery before its to late. We custom tailor Information technology disaster recovery plans to suit your needs and budget.
